SLEEPS: 4 | YEAR: 2027

The Ascent is Bailey's newest motorhome range. It takes the popular layouts from the award-winning, much-loved Adamo range and remodels them into a new-looking range of vehicles. The 69-4TS is based on the extremely popular 69-4 but, instead of a fixed double bed, has an extremely ingenious twin drop-down single beds which can be independently controlled, allowing two people to go to bed and wake up separately but also, when both deployed, can be side by side to make a double! At the rear you will find a full-width end washroom, a large garage behind and a spacious central lounge which, with the help of the electric table, turns into a secondary double bed, all under 7m in body length; plus, if you want to travel with four, the 69-4TS has pop-up travel seats too! One of the main benefits of the Ascent over the existing Adamo is the addition of a 150ah lithium leisure battery & Truma NEO heating!
